Dear Registrar,

I did not receive a response or a confirmation email in my email below. Why is the decision attached to my concluded application File 2016-25441-S mislabelled as File 2016-25441-I and why has it never been uploaded to <https://www.canlii.org> ?

On Canlii.org under citation 2015 HRTO 1126 I was granted anonymization in the public record; however, this tribunal is breaching this ruling on every HRTO filing with File 2019-36913-I despite it NEVER being HEARD. I require an explanation and why is it referenced in this textbook and labelling me disabled and with neurodivergence? The link for this textbook is <https://pressbooks.openeducationalalberta.ca/workplaceinvestigationshr/chapter/chapter-13-investigation-challenges/>. This is all fraud and I require an explanation and immediate reparations regarding all the online use of my full legal name in breach of the Ontario Human Rights Tribunal's first decision to anonymize my name linked to file 2015-19764-I which was also against the University of Waterloo.

As is attached to this email from the Human Rights Tribunal of Ontario's own decision with citation 2023 HRTO 1142 - I did set the precedence that video and audio recording interactions is a disability accommodation and it appears that the fraud is about deleting this off the record by smearing me online and while knowing I am neurodivergent ( the textbook File 2019-36913-I is linked to paints a picture that is inaccurate about Neurodivergence and my brand High IQ Autism previously Aspergers, Waterloo University and this tribunal knew all along I am Autistic and withheld it from me, filed 3 wellness checks ( Jan 11,2021 emails) and one on May 29,2025 and as the medical literature states, neurodivergents have a suicidal rate that is 66% higher than regular people. Were you trying to harm my life prospects because I am a Gazan-born Palestinian and Autistic , and hoping that I would take my own life? Or are you planning to hire someone to take my life and stage it as a suicide? I am not suicidal and I do not have a medical diagnosis for Neurodivergence and I believe I am given how hard this hate campaign against me is becoming. Are you working with Waterloo University to flag and study people like me by installing spyware on my network and devices? Did you hack into my medical records during the pandemic? You are the only one that had these documents, and given all the fraud from 2019-36913-I trying to negate how precedent was set that it is a disability accommodation to video and audio record all interactions.

Immediately, remove my legal name off all decisions and respect the HRTO decision with citation 2015 HRTO 1126, and immediately remove File 2019-36913-I off canlii.org as it was never heard and it is fraud given that I was never given the decision and that I never had a hearing and it is negating the actual decision attached below that is intentionally withheld to facilitate what I believe is a psychological experiment without my knowledge and consent for many years and I believe this is linked to how all these doctors pushed for medication but never tested me and did that from the first setting. None looked for trauma and autism. The textbook is linked to the surveillance program connected to human resources at Waterloo University and lately on CTV Waterloo University was flagged for illegal surveillance of their students using 29 smart vending machines. You are flagging high IQ autistics like me to study and test suicide pushing theories - why else stage false wellness checks, withhold the decision below from the public record and push a fraudulent decision across the internet with my legal name but on the same day I emailed you my legal name change certificate on March 23,2021 suggesting that this was all premeditated.

All of the defamation about me online is about how you want to label me mentally deficient and through racist eyes frame me as manipulative, dangerous and all sorts of horrible things you know is not true because I recorded our interactions. I need this all reversed and I want to be fully compensated for all damages to my life, opportunities and career since I went to Waterloo University in 2012 and since I filed in 2015 with this Ontario Human Rights Tribunal.

because my medical records at Ottawa University Health Services were hacked too during the pandemic when all the fraudulent decisions were uploaded to the internet on the Canadian government database to harm me and push me toward social and potentially actual suicide as I didn't know about them until 2024 or last year but I have been suffering for an entire decade.

My name is Alexa Baseeso, below, I am forwarding you the decision attached to my concluded filing which is NOT on <https://www.canlii.org> and the decision attached to it on <https://www.canlii.org> is misrepresenting it as ending in 2017. This is fraud and the actual decision sent to me by the Ontario Human Rights Tribunal is attached below with citation 2023 HRTO 1142 and it is attached to 2016-25441-I A.B. v. University of Waterloo . I am A.B. and when I filed, I was legally Aula Beseiso, and on March 23,2021 I emailed the HRTO registrar my legal name change certificate and copied Waterloo University's lawyer ( Darrell Hawrelak). On the same day, Vice Chair Romona Ganathan posted a fraudulent decision not attached to Waterloo University that was NEVER heard and claimed that I labelled myself 'mentally deficient'; however, I never did and she is being dishonest as I never met her and no hearing was ever booked for file 2019-36913-I so she never spoke to me, and I never met her. I filed three applications and ONLY ONE was heard (2016-25441-S but on some documents it is listed as 2016-25441-I) and while this was the only decision unfairly heard given what is written below and what actually happened ( Adjudicator Maureen Doyle lied about me and I have the videos to prove sent in a different email); it is not on CANLII because I was granted the disability accommodation of video and audio recording all of my proceedings by the Ontario Human Rights Tribunal as indicated in the decision sent to me by Maureen Doyle herself. I recorded them engaging in perjury and I sent you those emails before this one. All the attacks on my mental aptitude by non medical professionals including the Ontario Human Rights Tribunal and their network ( at least one crown attorney, multiple universities like the University of Alberta ( I never been to Alberta or to this University and PressBooks ( they published a textbook about me using my legal name without my knowledge and consent) - it is all tied to their perception that I could be neurodivergent and needing to be eliminated as I will discuss in my other emails and when I see you. This has extended to spyware on my devices ( I am emailing you from the library) and operatives sent to harass me non-stop out of various dance communities especially where I perform. The literature on Autism for those that are highly functional ( I hold no diagnosis but it appears that they believe this is my profile) it confirms the very opposite of the things the wrote about me, and it outlines that I need dancing to regulate and I do. This is additional to being surveilled using what appears to be military grade spyware and access to state-level meta suppression tools so much so that there are now too many fake accounts using my legal name on meta platforms so my own friends cannot find me and all of my public dance and dance-novel content ( I am writing a novel on my story) is suppressed and they have created a weird profile about me like I am not a Canadian citizen and like I am obsessed with being Arabic when I am a dancer and my work is about high IQ autism and epigenetics ( Book 2 Chapters 33 to 37 and chapter 26 - all can be shared with you but links are hard to find unless I share my infected phones with you). There is something more serious than just judiciary fraud here, and it has a MKUltra vibe to it because all the defamation is focused on using psychiatry to pathologize and create fake criminal entrapment. I hold no criminal record and my life was good until they published thier textbook to harm my ability to work and live as a Canadian citizen. This textbook references the HRTO decision 2019-36913-I like it happened BUT it was NEVER HEARD. I filed THREE applications and ONLY one was heard ( the one below) - everything else is fraud and organized to harm me.

Please, I am sharing a few emails and asking to meet with you in person to discuss immediate solutions because they are ruining my credit score, creating identity fragmentation about me online like I am two seperate people ( Aula Beseiso and Alexa Baseeso) and I only have ONE legal identity. I disclosed this to CSIS and RCMP when I filed for my Top Secret Clearance and it was granted to me on Dec 20,2022 and it is valid until Dec 20,2027. I have emails to validate all of this and I believe that they are hacking government databases to create false narratives about me because they have been studying me since flagging me as neurodivergent when I went to Waterloo University in 2012. I have evidence to back this up and their wellness checks back in 2020 were staging for what they believed I would do in response to their harassment online that I didn't know about until last year in 2024. Ideation rates are 66% higher in neurodivergents and as such they were counting on me ending my own life before finding out any of this. I am not suicidal and I believe they intend on ending my life and staging it as a suicide. I randomly received a wellness check on May 29,2025 and the police officers said that it is related to my Facebook account; however, I told them that so many fake ones exist for me and I can show them mine off my own phone and I made no such statements. I have been confronting this issue actively on my facebook starting on April 2,2025. And I believe I am being studied without my knowledge and consent because I only have 300ish friends, and I am not a public figure nor famous. However, none of my dance content that is public shows up on Google including my own Facebook account ( <https://www.facebook.com/lexibee668> ) never shows up on Google ( it is all stimming) and my dance videos especially with James Splinter ( another target and he is the owner of Vibe Salsa) have between 1000-2000 views. I slowed these videos down and read about neurodivergence and dancing . I slowed down those videos and I saw all the unmasking we were doing but it looked effortless and like art. I learned that higher IQ autistics are undiagnosed as adults because we have never had developmental or education or behavioural issues. Additionally, we have pattern thinking and logic and justice driven with hyper focus. This explains why they flag us out of graduate programs, and why I would go to the Ontario Human Rights Tribunal and filed three times and lasted over a decade. There is more to discuss but this is about ableism and it is targeting me for being profiled without my knowledge and consent as Autistic and targeted with social extermination likely to push me toward suicide while being surveiled as a test subject for pyscho harassment techniques like MKUltra Nothing else makes sense. Why do all of this? I am a normal person. Also, why hack my medical records and why

Evidence Maureen Doyle lied on Decision 2016-25441-S citation 2023 HRTO 1142 and I flagged it with evidence to the government in 2023.

Was this email spoofed from the government ? I think so given what I am experiencing right now via digital stalking, spyware and identity and credit fraud online and organized . harassment linked to my stimming dancing being suppressed on the internet and being targeted for dancing all of 2024 and upto now. I am neurodivergent ( Aspergers) and I need dance to regulate so targeting me in this way is also meant to destabilize me and push me toward suicide to cover up all this fraud , please investigate

I need a response from Adjudicator Doyle regarding my Form 10 submitted on Dec 2,2020 and accommodations for making my arguments in person via video hearing as is within the normal process. I live with OCD and Adjudicator Doyle's unfair order to submit arguments in writing to breach my ability to end this application is unacceptable. Adjudicator Doyle is ignoring my last Form 10 because it confronts her with her unfairness toward me and so I need this application sent to the Supreme Court since Adjudicator Doyle is unfair and has held me hostage in her favoritism toward Waterloo University as described by her non care for my due process rights , and refusal to book hearings to end this application before her appointment expired. Adjudicator Doyle also cancelled hearings booked to end this application to entertain Waterloo University continuing to harm me. She is biased, and cruel and I refuse to continue being delayed in accessing my rights because am racialized. It doesn't help that the HRTO ignores my emails, and so does the case processing officer Sivan Levy.

 Ottawa Police Called  
 by Alexa Baseeo

Dear HRTO/Eduardo,

On Dec 2,2020 I filed a complaint with Justice Tribunals as per the HRTO website & our second last conversation, and they haven't responded back to me even though it has been over 4 weeks.

On the same day, Dec 2,2020, I filed a form 10 to advise adjudicator Doyle of my positions on her transgressions toward me, given her assignment expires on Feb 2,2021. Adjudicator never responded to this form 10, the respondent responded right away & she never responded, and it has been over the 2 weeks rule ; however, as is customary in my application disenfranchise me.

On Dec 8,2020 ( see attached audio), another CCMC took place where I tried to vocalize my positions again, and adjudicator Doyle ended the call without addressing my concerns & continued to hear the respondent clearly understand that am not available past Dec 17,2020, and more specifically am not available on Jan 18,2021 but adjudicator Doyle still asked scheduling to book t

On Dec 15,2020; I emailed HRTO scheduling advising am NOT available on Jan 18,2021, and offered Jan 11,2021 & I was ignored for weeks. On Jan 3, 2021, I followed up again about my non availability on Jan 18, 2021 and offered availability on Jan 11, 2021 and still being ignored. Today is Jan 11, 2021 and despite forwarding a medical appointment email last Friday Jan 8, 2021 before noon, I have received nothing.

→ { Police False reporting is becoming a pattern of behaviour for the HRTO against me when raising my feelings regarding this process being unfair, specifically, being sad or upset about unfairness unstable because he or she is upset is racist.

The HRTO via your call center, and the adjudicator Maureen Doyle called Ottawa Police twice alleging that I am falsely suicidal. It has been over 2 applications at the HRTO and almost a decade. If I was weak , I wouldn't be still standing while am suffering with these abuses. This is evidence that I am mentally strong, and not mentally weak.

The first time, I tried to be understanding, and I let it go but the second time it was during the video conference hearing & it was the same police officers that came to my address. When a pattern of unwelcome behaviour ,that is reasonably known to be unwelcome, happens more than once; it is called harassment. When it isn't based on any evidence, it is false reporting labelled negatively & I will not allow this.

→ { Today I called Ottawa police & informed them of my feeling on the HRTO calling me suicidal twice, and sending police officers to my door as intentional false reporting. I recorded this call and the police took my info and documented it as call # 21-7972. If the HRTO does this again, the police officers will see this note & when they come to my door, I will ask them to

I notified the police of this application #, and that adjudicator Doyle's assignment expiry is Feb 2, 2021, and her stretching out of this application for over 5 years. I did offer for the police to be present at all future hearings to prevent any more of these false reports designed to embarrass me & attack my dignity in an effort to take time away from this app

→ { I refuse this unequal treatment & lack of equality under the law. This application is taking so long because there is a refusal from adjudicator Doyle to make a decision that forces Waterloo Unbreaching our settlement. Further, adjudicator Doyle doesn't want me to be able to address the discrimination I actually faced by being able to open my original application. She made this assessment for this application, she makes it impossible for me to open the original application. I tried to file a form 20, and that is what the HRTO communicated to me.

Today is Jan 11,2021; the date I proposed on December 15,2020 to sub for the Dec 17,2020 hearing that was taken away from me unjustly. It is here, and I have no response on a timely hearing from me unjustly.

I am Canadian, I have rights & I want to exercise these rights to their full limits. None of this is right.

I called the police to notify them I am calling you to repeat the above, and that I will send you an email heads-up am calling, and I did ask them to press charges if the HRTO claims any false reporting again. I called them to let them know I am calling you so that if you file another false report, the police know am fine & it is you that needs their attention.

Best,  
 A.B.
